

KAREN APPLE
PROJECT MANAGER
CITY OF PHOENIX AVIATION DEPARTMENT

Karen Apple is a Project Manager with the City of Phoenix Aviation Department, Planning & Environmental Division, Long Range Planning Section. Karen is responsible for NEPA (National Environmental Policy Act) processing on all airport development projects. Karen was also responsible for managing the Airport Master Plans at Phoenix Deer Valley and Phoenix Goodyear Airports which were both approved in the fall of 2007. Karen also manages the airport activity database which provides information on monthly and yearly enplanements and aircraft operations. Karen has also assisted in CIP (Capital Improvement Planning) project planning, Federal and State grants, and several airport land use planning studies.

Karen has a bachelor degree from Indiana University in Public Affairs-Transportation and a master's degree from Arizona State University in Environmental Planning-Urban and Regional Planning. She is also in the process of obtaining a Certificate in Airport Management from Embry Riddle Aeronautical University. Prior to working at the City of Phoenix, Karen worked as an airport environmental planner in the consulting field for over 10 years. She is also a certified member of the American Association of Airport Executives.
